

Greetings!

Last night I spoke to about 75 Perspectives students. I didn't use PowerPoint. I simply gave them a set of notes and said, "Open your Bibles..."

But the reason why it was so powerful started at 12:30am the morning before.

I woke up. And it was one of those "I'm awake and I can't go back to sleep," times. So for two hours I tossed and turned begging the Lord to let me get some sleep before I had to wake up at 5am.

I got to sleep at 2:30am (at least that was the last time I looked at the clock) and woke up very tired. In fact, I was tired the whole day.

I slept a little bit in the plane. I then asked the man who picked me if he minded me taking a nap. He didn't. I maybe got 15 minutes there. I then tried to take a quick nap before the class. (I may have dozed off.)

But when it came time to start the class, I was exhausted. All I could do was pray and say, "Holy Spirit, I need you now more than ever."

And it was an anointed night.

Thanks for all your prayers. They were needed.

The Biggest Highlights:

- When asked what was the most powerful teaching in the class, one student said, "That we should go overseas for our sakes."
- My host has lots of connections in Kenya but now needs new connections for various reasons. I'm looking forward to teaming up with his church!

For our 35th Anniversary, Debby surprised me with dinner out at a fancy restaurant (it was the first time I've ever eaten at Ruth Chris Steak house!) along with our children and their spouses who live in Richmond!

I'm home now for a long time--though I have a two more Perspectives classes, but they're by Zoom.

I'm looking forward to being home!
